

Fluency Facts

Year 1 - Spring 1

I know number bonds to 10

By the end of this half term, children should know the following facts. The aim is for them to recall these facts instantly.

$$0 + 10 = 10 \quad 2 + 8 = 10 \quad 4 + 6 = 10$$

$$10 + 0 = 10 \quad 8 + 2 = 10 \quad 6 + 4 = 10$$

$$10 - 10 = 0 \quad 10 - 8 = 2 \quad 10 - 6 = 4$$

$$10 - 0 = 10 \quad 10 - 2 = 8 \quad 10 - 4 = 6$$

$$1 + 9 = 10 \quad 3 + 7 = 10 \quad 5 + 5 = 10$$

$$9 + 1 = 10 \quad 7 + 3 = 10 \quad 10 - 5 = 5$$

$$10 - 9 = 1 \quad 10 - 7 = 3$$

$$10 - 1 = 9 \quad 10 - 3 = 7$$

Key Vocabulary

What is 3 add 2?

What is 2 plus 2?

What is 5 take away 2?

What is 1 less than 4?

They should be able to answer these questions in any order, including missing number questions e.g. $6 + \bigcirc = 10$ or $10 - \bigcirc = 3$

Top Tips The secret to success is practising little and often. Use time wisely. Can you practise these Fluency Facts while walking to school or during a car journey? You do not need to practise them all at once; perhaps you could have a fact of the day. If you would like more ideas, please speak to your child's teacher.

Use practical resources - Your child has one potato on their plate and you give them three more. Can they predict how many they will have now?

Make a poster - We use Numicon at school. You can find pictures of the Numicon shapes here: bit.ly/NumiconPictures - your child could make a poster showing the different ways of making 10.

Play Games - You can play number bond pairs online at www.conkermaths.com and then see how many questions you can answer in just one minute.
